## ConceptDraw Office Installation Guide.

*Print this guide and keep it for reference to help you during the installation and process.*

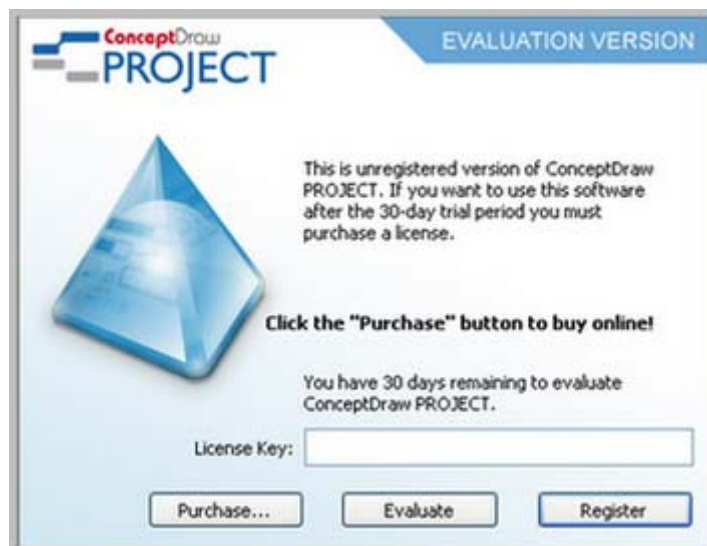

1. Download or insert the software to your computer from the download link or DVD provided to you upon your purchase.
2. Once the install wizard launch follow onscreen instructions.
3. Once the **Customer Information Dialog** appears, your installation complete.
4. Please enter your information into the form and press “**Next**”.
  - 4.1.1. Find your **License Key** in the “Keycode” row of online store confirmation message.
  - 4.1.2. If you have purchased boxed copy of software, also find your **License Key** is in the product box.

The screenshot shows a Windows-style dialog box titled "ConceptDraw Office" with a close button (X) in the top right corner. The dialog has a blue header bar and a light beige body. The title "Customer Information" is in bold. Below the title, it says "Please enter your information." There are three input fields: "User Name:", "Organization:", and "License Key:". Below the "License Key:" field, there is a note: "It is not necessary to enter a license key if you evaluating ConceptDraw Office. Click Next to continue." At the bottom left, it says "InstallShield". At the bottom right, there are three buttons: "< Back", "Next >", and "Cancel".

5. If you want to evaluate products contained in ConceptDraw Office, just press “**Next**”. Now you have 30 days to evaluate, with no limits on products functionality.
6. You can run y **ConceptDraw MINDMAP**, **ConceptDraw PROJECT** and **ConceptDraw PRO** by clicking **Desktop icons** or using **Start menu**

7. During evaluation period a reminder window will inform you about days remain up to the expiration of evaluation.

- 7.1. Press "**Purchase**" to obtain the License Key for your software
- 7.2. Press "**Evaluate**" if you want to continue product evaluation.
- 7.3. Enter License Key and press "**Register**" if you have product License Key or ConceptDraw Office License Key.

*Note: Please enter the key attentively (use copying/pasting to avoid mistakes).*

8. If evaluated period have expired you can run software in **Demo** mode.
